PARKER 25

created to meet today's exacting writing demands

Thoughts come faster and easier when you use a smooth-writing pen. That's why you will enjoy writing with the contemporary, responsive Parker 25 fountain pen. Its rugged stainless steel case and nib assure dependable service for years.

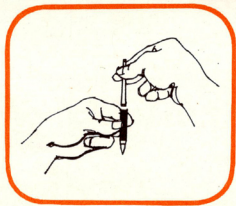

Filling Instructions

All Parker pens are convertible. That is, they either can be loaded with a convenient Super Quink ink cartridge or filled with economical bottled Super Quink ink. Your pen is already equipped with a filling unit.

To fill from an ink bottle

Pull cap off pen, unscrew barrel from front end of pen. Immerse point in ink, press ribbed bar on filling unit four times. Remove excess ink from point with absorbent tissue, replace barrel.

To convert to a cartridge pen

Pull cap off pen, unscrew barrel from front end of pen. Pull out filling unit. Insert Super Quink ink cartridge into front end of pen, push in firmly until you feel the cartridge seat itself. Replace barrel.

To install a refill in your matching Parker 25 ball pen

cap

refill

barrel

1. Unscrew cap and remove empty refill.
2. Insert new refill. Make sure the point rides freely in the barrel spring.
3. Replace cap.
4. Start the ink flow by writing a few quick "check marks" [✓].
